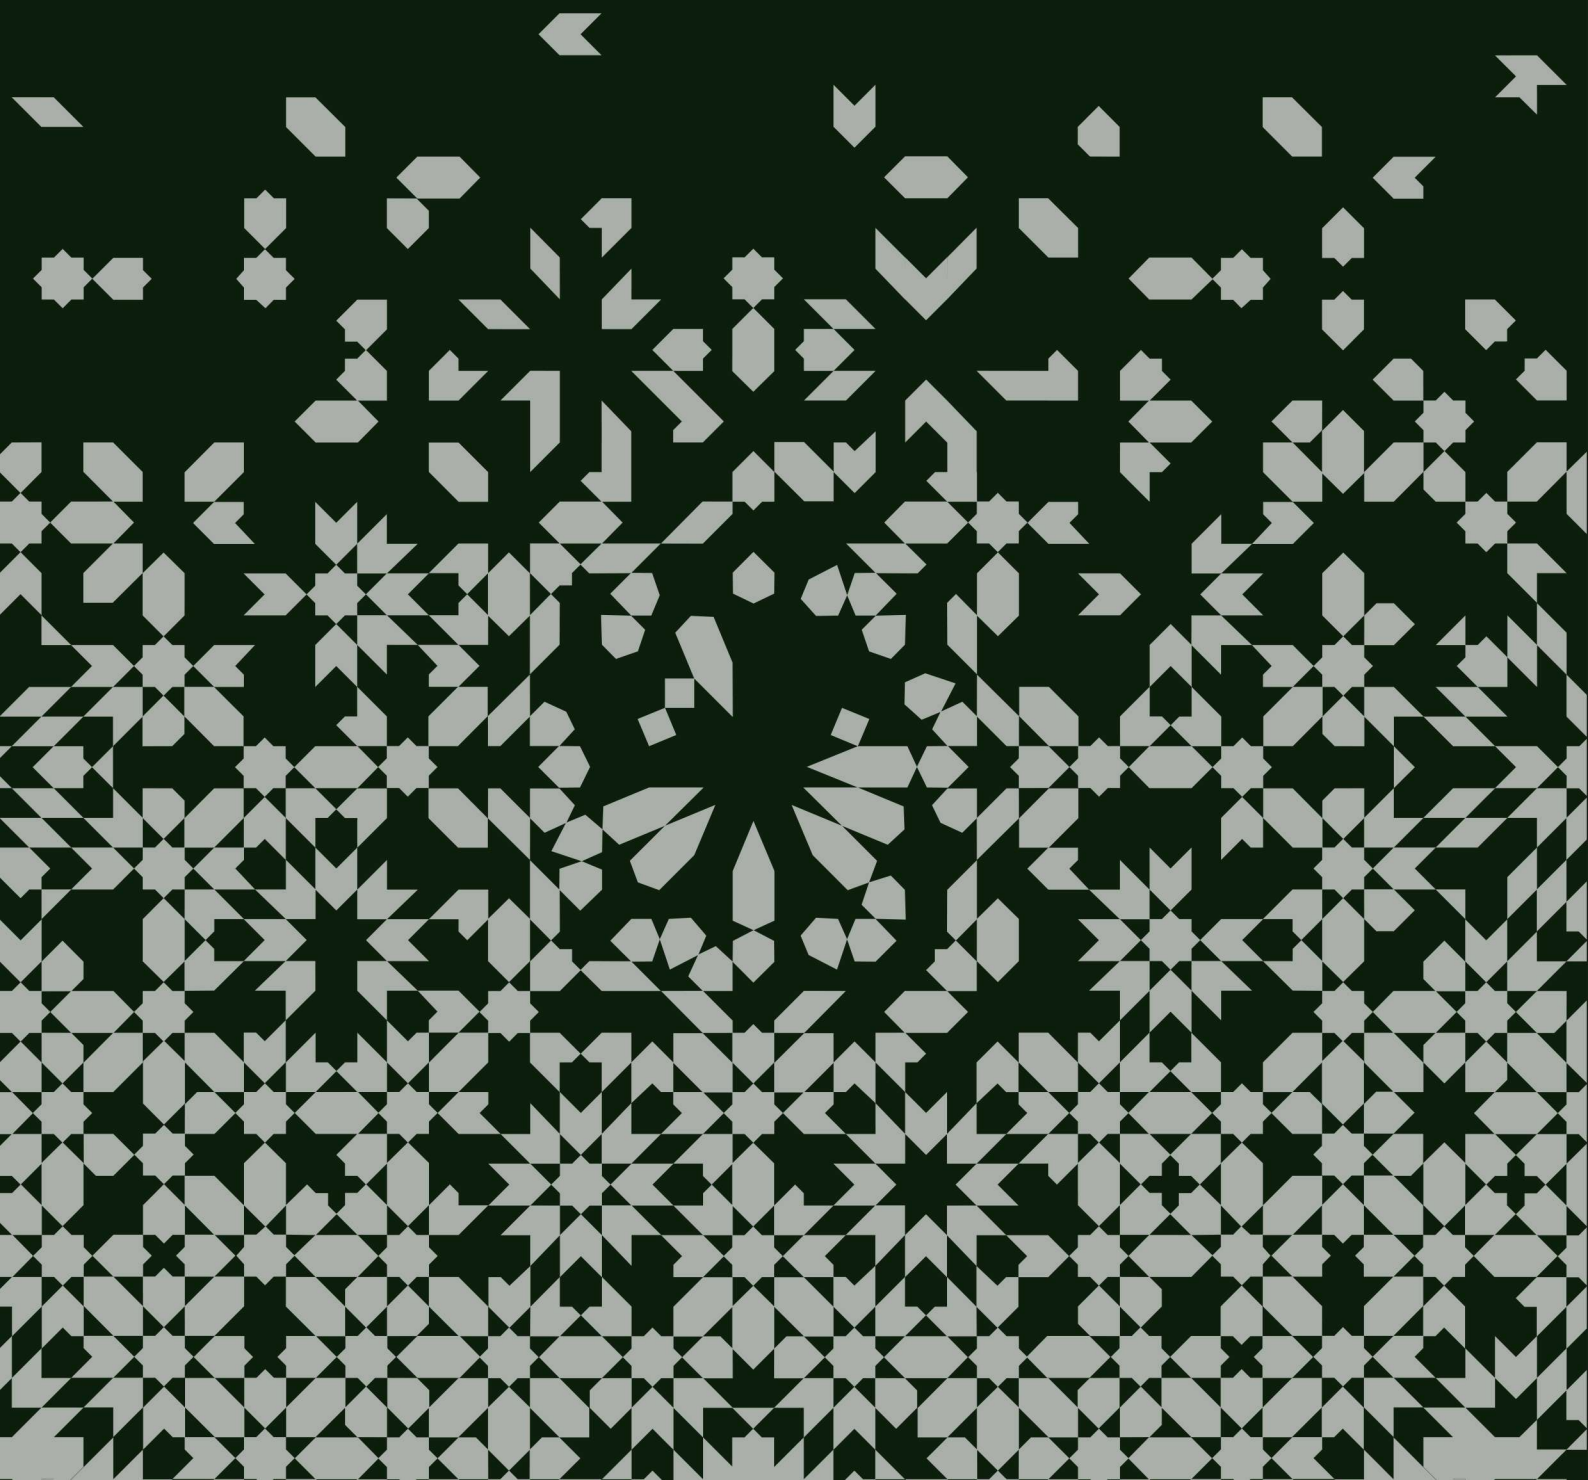
Maison Aït Manos

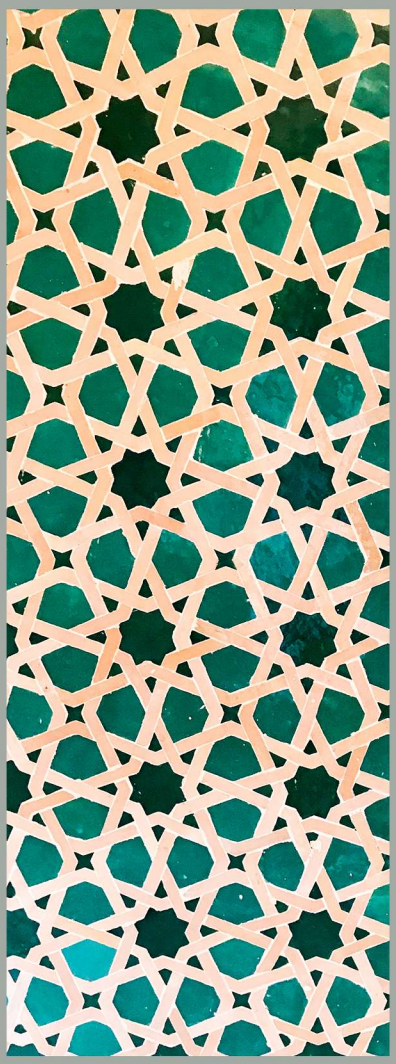
# COLLECTIONS



## THE ESSENTIALS

Versatile and flexible, "the Essentiels" collection makes it possible to adapt to all styles, whether modern or traditional.

A timeless collection, Basic presents various stylistic proposals to complement, sublimate and finalize all spaces. Floor or wall tiles in monochromatic hues ranging from beige to red, the Basic collection is the foundation of an inspired and unique décor.



## THE CLASSICS

"The Classics" collection itemizes all of the essential patterns of Moroccan zellige.

Deeply rooted in Moroccan architectural heritage, these patterns, such as the iconic “Oulmes” are revisited by Aït Manos to build spaces that hint at Moroccan tradition whilst keeping a contemporary character. As such, as much as they are sometimes commonly used in their original versions, other times they are revisited in monochromatic hues in the heart of the Aït Manos Workshops, resulting in a unique and singular décor.

## THE DESIGNS

To transpose traditional Moroccan know-how and graphic art in current spaces all around the world, Aït Manos designed modern patterns.

A line where handmade traditional Moroccan ceramic tiles transforms into powerfully avant-garde decorative elements. Preserving the purity of tradition and going for a subtle color scheme that borders minimalism, "The designs" collection blends into spaces where volumes and lights stand out from those encountered in Morocco.

*THE DESIGNS*

# Art Déco Collection

The Aït Manos Workshops travel back in time, to the heart of the 20s in Casablanca. An exhilarating, flamboyant era, during which architects discovered the treasures of the Moorish heritage that they distilled into wildly elegant buildings. This is what Aït Manos interprets with "Art Deco", a collection composed of 6 modules with rich patterns, orchestrated in 18-carat gold, black and white carrare.

*THE DESIGNS*

# Mirage

**Eric Gizard** is both a talented orchestrator and a visionary, drawing his inspiration and references from the mid-century modern. The unique signature is his work on emphatic contrasts and "light vs dark".
